

Summary of Changes to Env-A 200, *Procedures*

Since Env-C 200, *Procedures*, contains most of the procedural rules used by the Air Resources Division, it was not necessary to readopt Env-A 202, *Time*, or Env-A 203, *Rulemaking*. Other sections in Env-A 208 (now re-numbered 203), *Hearings*, were deleted because they conflicted with or duplicated similar sections in Env-C 200. In addition, Parts 204, 205, 206, and 209 were moved to Env-A 600, *Statewide Permit System*, since those parts concern permit, rather than general, procedures. Changes were also made to the wording in Part 212 (now re-numbered 205), *Waiver*.

The numbering of Env-A 200 has been changed as follows:

FORMER NUMBERING

Env-A 201, *Purpose*
Env-A 202, *Time*
